

Dear Payer,

You will be aware that we had hoped to have the Member Register available on 1st October, 2015, together with the associated web services between GDRFA and Dimensions Healthcare. All parties have been working extremely hard to meet this timeline. Whilst we were in a position to publish on 1st October, testing has shown that we require a little more time to ensure that the service is as flawless as possible. Accordingly, DHA advises that all insurers (or their TPAs where the task has been delegated by an insurer) should continue to collect member data ready for upload once the system is available. We will also make available a facility and allow time for payers to test the operation of the system before going live themselves. We will update you on timelines shortly.

Best Regards,

Information Desk Officer
