

eClaimLink

eClaimLink is the eClaim project of the Dubai Health Authority with the objectives of establishing a unified standard healthcare language communicated across the emirate, implementing a unified structured communication schema, providing a centralized health data tracking system, facilitating eClaim financial and clinical information between payers, providers, patients & authorities. Empowering the Dubai Health Authority with the needed information to organize, strategize, and optimize the healthcare setting in Dubai.

The eClaimLink portal is intended to manage eClaims and health data. In addition, it will serve to connect all the healthcare community of Dubai and through its many anticipated modules will raise the quality of care, enhance efficiency, and reduce mistakes, fraud and abuse in the Emirate of Dubai.
